## 1 Foreword

CECS 460-2016 was issued by China Association for Engineering Construction Standardization on 12 December 2016 and has been in force since 1 March 2017.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 21 pages in English translation.

## 2 Scope Preview

This standard applies to the installation, installation, inspection and operation of the piston pumped control valve in the pumping station or pumping station of the newly constructed, expanded and converted urban water supply and drainage, construction water supply and drainage, industrial water supply and drainage, water conservancy and agricultural irrigation maintain.

CECS 460-2016 is filed under Chinese Standard Classification P 41, in the field of engineering construction.

This catalogue holds 136 other CECS standards without an ICS number.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
