CECS

ASSOCIATION STANDARD OF CHINA ASSOCIATION FOR ENGINEERING CONSTRUCTION STANDARDIZATION

CECS 69-2011

Replacing CECS 69-1994

Technical specification for test of concrete strength by pullout method

拔出法检测混凝土强度技术规程

(English Translation)

Issued on: June 22, 2011 **Implemented on: October 1, 2011**

1 Foreword

CECS 69-2011 was issued by China Association for Engineering Construction Standardization on 22 June 2011 and has been in force since 1 October 2011.

It replaces the earlier edition CECS 69-1994.

2 Scope

This standard specifies test methods for testing concrete strength. This procedure applies to both compressive strength of the concrete structure 10. 0MPa ~ 80. 0MPa and construction of structural concrete strength testing and presumption. When concrete strength testing using the pull out method and constructive, shall comply with the rules, there should be consistent with existing national standards.

3 About this standard

Issued by: China Association for Engineering Construction Standardization

English translation: about 32 pages

Chinese original: about 48,481 characters

Supersedes the earlier edition CECS 69-1994.

4 Classification and status

International classification (ICS): 91.080.40

Chinese Standard Classification (CCS): P 25

Prefix CECS: association standard of the engineering construction sector, adopted voluntarily.
