1 Foreword

CH/T 2013-2016 was issued by Ministry of Natural Resources of the People's Republic of China on 29 December 2016 and has been in force since 1 March 2017.

The CH/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 17 pages in English translation.

2 Scope Preview

This standard specifies the general requirements for the measurement marker database, as well as the contents and requirements for database system design, database construction, system integration and deployment, security assurance and operation and maintenance. This standard is applicable to the construction of national and local survey mark databases and the construction of other related survey mark databases.
