1 Foreword

CH/T 3006-2011 was issued by Ministry of Natural Resources of the People's Republic of China on 15 November 2011.

The CH/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 16 pages in English translation.

2 Scope Preview

This standard specifies the basic requirements for control measurement in the production of digital aerial photogrammetry based on framed aerial photography, the placement requirements of the image control points (like control points), the operating methods and technical requirements for the control points. This standard applies to the basic geographic information digital results 1: 500, 1: 1000, 1

CH/T 3006-2011 is filed under Chinese Standard Classification A 77, in the field of general, standardization and metrology.

This catalogue holds 59 other CH/T standards without an ICS number.

In this catalogue, CH/T standards carry edition years from 1999 to 2024.

3 About this standard

Issued by: Ministry of Natural Resources of the People's Republic of China

English translation: about 16 pages

Chinese original: about 24,258 characters

4 Related standards

Standards on related subjects:

GB/T 36299-2018 - Basic terminology of radiative transfer in optical remote sensing

GB/T 14950-2009 - Terms of photogrammetry and remote sensing

GB/T 12897-2006 - Specifications for first and second order levelling

CH/T 3003-2021 - Low-altitude digital aerial photogrammetry internal industry specifications

5 Classification and status

Chinese Standard Classification (CCS): A 77

Prefix CH/T: recommended standard.
