1 Foreword

CJ/T 101-1999 was issued by Ministry of Housing and Urban-Rural Development of the People's Republic of China on 24 November 1999 and has been in force since 1 June 2000.

The CJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the principles of atomic absorption spectrophotometry lead content, instruments, reagents and procedures. This standard applies to municipal solid waste in the determination of lead.It cites 1 other standard.

CJ/T 101-1999 is filed under Chinese Standard Classification Z13, in the field of environmental protection.

This catalogue holds 265 other CJ/T standards without an ICS number.

In this catalogue, CJ/T standards carry edition years from 1955 to 2024.

3 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document.

CJ/T 3039-1995, - Sampling and physical analysis methods for municipal domestic refuse

4 About this standard

Issued by: Ministry of Housing and Urban-Rural Development of the People's Republic of China

English translation: about 8 pages (approximate)

5 Related standards

Standards on related subjects:

HJ 662-2013 - Environmental protection technical specification for co-processing of solid wasters in cement kiln

HJ/T 400-2007 - Determination of volatile organic compounds and carbonyl compounds in cabin vehicles

HJ/T 298-2007 - Technical specifications on identification for hazardous waste

CJ/T 313-2009 - Sampling and analysis methods for domestic waste

6 Classification and status

Chinese Standard Classification (CCS): Z 13

Prefix CJ/T: recommended standard.
