Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard replaces CJ/T 294-2008 "Disc Aerator". Compared with CJ/T 294-2008, the main technical changes are as follows.

- Modified terms and definitions (see Chapter 3, Chapter 3 of the 2008 edition);
- Modified the model preparation of the rotary disc aerator (see 4.2, 5.2 of the 2008 edition);
- Modified the basic parameters of the rotary disc aerator (see Table 1, Table 1 of the 2008 edition);
- Modified the main components of the requirements (see Chapter 6, Chapter 6 of the 2008 edition);
- Modified test methods and inspection rules (see Chapter 7, Chapter 8, Chapters 7 and 8 of the 2008 edition);
- Added a table of inspection rules (see Table 2);
- Increased the content of marking, packaging, transportation and storage (see Chapter 9).

This standard was proposed by the Institute of Standardization of the Ministry of Housing and Urban-Rural Development.

This standard is under the jurisdiction of the Municipal Water Supply and Drainage Standardization Technical Committee of the Ministry of Housing and Urban-Rural Development.

This standard was drafted. 1 Scope

This standard specifies the terms and definitions, types, models and basic parameters of the rotary disc aerator (hereinafter referred to as "aerator").

Requirements, test methods, inspection rules, marking, packaging, transportation and storage.

This standard is applicable to the manufacture and inspection of oxidation ditch disc aerators in sewage treatment projects.
