### What this standard covers

This standard specifies the construction CPU card chip basic requirements, construction non-contact CPU card chip communication interface, contactless logical encryption card compatibility requirements and the corresponding definitions and symbols. This standard applies to construction in non-contact CPU card chip design, manufacture and use.

### Document data

International classification (ICS): 35.240.60.

Chinese classification (CCS): P07.

Estimated length of the Chinese original: 48,423 words.
