Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard replaces CJ/T 359-2010 "aluminum water meter case and fittings." this standard is CJ/T 359-2010 "aluminum water case and fittings" revision, compared with the CJ/T 359-2010 main technology the changes are as follows.

- Increase the stainless steel case and fittings requirements (see all chapters, sections,);
- Increase the provisions of the torque applied to the pipe joints (see 4.6);
- Supplement factory inspection (see 6.2.1,6.2.2);
- Increase the factory inspection sampling method (see 6.2.3);
- Supplementary type test (see 6.3.1);
- Increase judgment rules (see 6.4);
- Increasing the aluminum case and pipe fittings installation requirements (see 7.2.2);
- Removed terms and definitions (see the 2010 edition of Chapter 3);
- Remove the aluminum case and fittings can be the same size, the same structure to replace cast copper, cast iron products, thread tolerance requirements in line with GB/T 197 (see 2010 version 4.4.3).

This standard proposed by the Ministry of Housing and Urban Standard and Design Institute.

This standard by the Ministry of Housing and Urban Water Supply and Drainage Standardization Technical Committee building centralized.

This standard was drafted. Sanchuan Wisdom Technology Co., Ltd., Hangzhou Water Meter Co., Ltd., Hunan Changde water meter manufacturing company, Wuxi Meter limited liability company, Haining Jiaye Construction Co., Ltd.

1 Scope

This standard specifies the aluminum alloy, stainless steel water meter case and meter cover, pipe fittings, connecting nuts (hereinafter referred to as the fittings) of the material to Requirements, test methods, inspection rules, marking, packaging, transportation and storage.

This standard applies to DN $\leq$ 40 all threaded drinking cold water meter and the temperature level is not higher than the T90 hot water meter Aluminum and stainless steel case and fittings.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version applies to this article Pieces. For undated references, the latest edition (including all amendments) applies to this document.

GB/T 191 Packaging - Pictorial signs GB/T 228.1 Tensile testing of metallic materials - Part 1. Room temperature test method GB/T 231.1 Brinell hardness test of metallic materials - Part 1. Test methods GB/T 778.1-2007 Closed full pipe flow measurement - Drinking cold water meter and hot water meter - Part 1. Specifications GB/T 778.3-2007 Closed full pipe flow measurement - Drinking cold water meter and hot water meter - Part 3.
