8.5 Pressure test, purging and trial operation
9 Operation management
9.2 Preparation before operation
9.3 Warming pipe
9.4 Operational maintenance
9.5 Operational stop

## 1 Foreword

CJJ/T 100-2017 was issued by Ministry of Housing and Urban-Rural Development of the People's Republic of China on 30 October 2017 and has been in force since 1 June 2018.

It replaces the earlier edition CJJ 100-2004.

The CJJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

## 2 Scope Preview

This standard applies to the construction, management, maintenance, application and service of urban basic geographic information systems.

CJJ/T 100-2017 falls under ICS 91.010, in the field of construction materials and building.

This catalogue holds 59 other CJJ/T standards in that field.

In this catalogue, CJJ/T standards carry edition years from 1993 to 2023.

## 3 About this standard

Issued by: Ministry of Housing and Urban-Rural Development of the People's Republic of China

English translation: about 108 pages

Chinese original: about 163,184 characters

Supersedes the earlier edition CJJ 100-2004.

## 4 Related standards

Standards on related subjects:

GB/T 16311-2024 - Specification and test method for road traffic markings
