8.5 Pressure test, purging and trial operation
9 Operation management
9.2 Preparation before operation
9.3 Warming pipe
9.4 Operational maintenance
9.5 Operational stop

1 Foreword

CJJ/T 215-2014 was issued by Ministry of Housing and Urban-Rural Development of the People's Republic of China on 27 March 2014 and has been in force since 1 September 2014.

The CJJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 28 pages in English translation.

2 Scope Preview

This Standard specifies the urban gas pipeline leak detection and pipe ancillary facilities within the plant station process piping, pipe network process equipment. This Standard does not apply to gas leak detection device body.

CJJ/T 215-2014 falls under ICS 91.140.40, in the field of construction materials and building.

This catalogue holds 59 other CJJ/T standards in that field.

In this catalogue, CJJ/T standards carry edition years from 1993 to 2023.

3 About this standard

Issued by: Ministry of Housing and Urban-Rural Development of the People's Republic of China

English translation: about 28 pages

Chinese original: about 42,480 characters
