1 Foreword

CJJ/T 246-2016 was issued by Ministry of Housing and Urban-Rural Development of the People's Republic of China on 6 June 2016 and has been in force since 1 December 2016.

The CJJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 27 pages in English translation.

2 Scope Preview

This standard applies to the town (township) village water supply project planning. Town (township) village water supply project planning should be consistent with the local overall planning and related regional planning, planning period should be consistent. Town (township) village water supply project planning should pay attention to the recent construction planning, and should take into account the needs of the development of the prospective. Town (township) village water supply project planning should reflect the local conditions, overall planning, construction and management, safety priority principle. Town (township) village water supply project planning should be rational use of water resources, pay attention to conservation of water, improve water use efficiency, strengthen water resources protection and water quality monitoring, and ensure safe water supply. In planning water sources, surface water plants or groundwater

CJJ/T 246-2016 falls under ICS 91.140.60, in the field of construction materials and building.

This catalogue holds 59 other CJJ/T standards in that field.

In this catalogue, CJJ/T standards carry edition years from 1993 to 2023.

3 About this standard

Issued by: Ministry of Housing and Urban-Rural Development of the People's Republic of China
