1 Foreword

CJJ/T 7-2017 was issued by Ministry of Housing and Urban-Rural Development of the People's Republic of China on 23 August 2017 and has been in force since 1 February 2018.

It replaces the earlier edition CJJ 7-2007.

The CJJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard is applicable to geophysical exploration in urban construction engineering planning, surveying, design, construction, management, operation and maintenance, and disaster reduction and disaster prevention and environmental protection.

CJJ/T 7-2017 falls under ICS 93.020, in the field of civil engineering.

This catalogue holds 16 other CJJ/T standards in that field.

In this catalogue, CJJ/T standards carry edition years from 1993 to 2023.
