CJJ

INDUSTRY STANDARD OF THE PEOPLE'S REPUBLIC OF CHINA

CJJ/T 72-2015

Replacing CJJ 72-1997

Technical code for trolleybus supply network engineering

无轨电车牵引供电网工程技术规范

(English Translation)

Issued on: November 30, 2015 **Implemented on: May 1, 2016**

Issued by: Ministry of Housing and Urban-Rural Development of the People's Republic of China

9 Civil works

1 Foreword

CJJ/T 72-2015 was issued by Ministry of Housing and Urban-Rural Development of the People's Republic of China on 30 November 2015 and has been in force since 1 May 2016.

It replaces the earlier edition CJJ 72-1997.

The CJJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard applies to the new DC system rated voltage 750V, alteration, expansion of DC system rated voltage 600V urban and suburban trolleybus traction power supply network design, construction and acceptance. The construction of trolleybus traction power supply network should conform to the overall planning requirements of the city and should be coordinated with the urban landscape. Should be based on trolley bus development planning, phased construction, and gradually implemented. Trolleybus traction power supply equipment selection and design, should meet the standardization, generalization, serialization requirements. Trolleybus traction power supply network should be safe, reliable, energy saving, environmental protection and economic application. Trolleybus traction power supply network using the main material, should use low halogen, low smoke flame retardant or refractory products. In the 110kV above the high-voltage lines, not set up trolley wire network. Trolleybus traction power supply network

CJJ/T 72-2015 is filed under Chinese Standard Classification P 63, in the field of engineering construction.

This catalogue holds 97 other CJJ/T standards without an ICS number.

In this catalogue, CJJ/T standards carry edition years from 1993 to 2023.

3 About this standard

Issued by: Ministry of Housing and Urban-Rural Development of the People's Republic of China

English translation: about 91 pages

Chinese original: about 138,110 characters

Supersedes the earlier edition CJJ 72-1997.

4 Related standards

Standards on related subjects:

GB/T 16895.36-2024 - Low-voltage electrical installations - Part 7-722: Requirements for special installations or locations - Supplies for electric vehicles

GB 50169-2016 - Code for construction and acceptance of grounding connection electric equipment installation engineering

CJJ/T 135-2009 - Technical specification for pervious cement concrete pavement

CJJ 145-2010 - Technical specification for gas-fired combined cooling, heating and power engineering

5 Classification and status

Chinese Standard Classification (CCS): P 63

Prefix CJJ/T: recommended standard.
