2 Scope Preview

This article aims to standardize the expression of the scope of accreditation capabilities of testing and calibration laboratories to make it more scientific and accurate. It also helps to improve the consistency of the same capability expressions between laboratories and review groups. This article stipulates the general requirements for the expression of the scope of accreditation of testing and calibration laboratories. The expression of the scope of competence in specific professional fields should refer to the general requirements and be implemented in accordance with the specific requirements of that field.
