1 Foreword

CNASEL 23-2022 was issued by China National Accreditation Service for Conformity Assessment on 1 December 2022 and has been in force since 30 December 2023.

The CNASEL prefix marks a accreditation criteria document, not a standard.

The document runs to 25 pages in English translation.

2 Scope Preview

This standard specifies the general requirements for expressing the scope of accreditation of veterinary testing laboratories. The field of veterinary testing includes but is not limited to animal disease testing, veterinary biological product evaluation, experimental animal quality and environmental testing, animal experiments, biochemical index determination, genetic and breeding testing, pathological examination, toxicological evaluation, animal species identification, etc. Veterinary testing and quality control activities. At the same time, testing laboratories engaged in veterinary related fields can also refer to it. In addition, laboratory customers, statutory management agencies, peer review organizations, accreditation
