1 Foreword

CNASTRL 017-2021 was issued by China National Accreditation Service for Conformity Assessment on 10 July 2021 and took effect the same day.

The CNASTRL prefix marks a accreditation criteria document, not a standard.

The document runs to 20 pages in English translation.

2 Scope Preview

This standard aims to promote the understanding and implementation of CNAS accreditation technology by laboratories in the field of thermal coal testing, and provide technical guidance for assessors and laboratories. This standard is applicable to the establishment of a management system for laboratories applying for accreditation, including sampling, qualitative analysis or quantitative testing of physical properties and chemical components in the field of thermal coal testing; it is used for laboratories that are applying for accreditation and have been accredited to standardize their management and technical use. ; It can also be used by reviewers as a reference during the review process (Appendix
