1 Foreword

CNASTRL 019-2022 was issued by China National Accreditation Service for Conformity Assessment on 31 December 2022 and took effect the same day.

The CNASTRL prefix marks a accreditation criteria document, not a standard.

The document runs to 10 pages in English translation.

2 Scope Preview

This standard specifies the procedures, methods and general principles for EMC testing laboratories to formulate calibration schemes, implement calibrations, and apply calibration results in order to realize the traceability of key equipment values, as well as the calibration parameters and scope of typical equipment. This standard applies to laboratories in the field of electromagnetic compatibility testing. The field of electromagnetic compatibility testing includes electromagnetic compatibility testing items of various electronic and electrical products, industrial science and medical equipment, automobiles and motorcycles.

CNASTRL 019-2022 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 8 other CNASTRL standards.

In this catalogue, CNASTRL standards carry edition years from 2020 to 2023.

3 About this standard

Issued by: China National Accreditation Service for Conformity Assessment

English translation: about 10 pages

Chinese original: about 15,166 characters

4 Classification and status

Prefix CNASTRL: accreditation criteria document, not a standard.
