8 Processing process
8.1 Audio resource processing
8.2 Pre-processing
8.3 Digital acquisition
8.4 Audio post-processing
8.5 Basic requirements for metadata indexing
9.1 Video file quality
9.2 Metadata description quality
9.3 Save Quality Management

1 Foreword

CY/T 101.5-2014 was issued by State Press and Publication Administration on 29 January 2014 and took effect the same day.

It is one of 10 parts of the CY/T 101 series.

The CY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the requirements for the transfer, use, preservation and reimbursement of information processing materials. This standard is applicable to the digital processing of news publishing content resources and the production and application of electronic resources.

CY/T 101.5-2014 falls under ICS 35.240.30, in the field of information technology.

This catalogue holds 21 other CY/T standards in that field.

In this catalogue, CY/T standards carry edition years from 1991 to 2026.

3 About this standard

Issued by: State Press and Publication Administration

English translation: about 8 pages

Chinese original: about 12,112 characters
