1 Foreword

DB/T 28-2008 was issued by China Earthquake Administration on 23 April 2008 and has been in force since 1 October 2008.

The DB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 14 pages in English translation.

2 Scope Preview

This standard specifies the weak magnetic induction measurement instruments test content and test methods. This standard applies to magnetic induction measurement range OnT ~ 70000nT various quantum magnetometer and fluxgate magnetometer accreditation.

DB/T 28-2008 falls under ICS 91.120.29, in the field of construction materials and building.

This catalogue holds 94 other DB/T standards in that field.

In this catalogue, DB/T standards carry edition years from 2000 to 2026.

3 About this standard

Issued by: China Earthquake Administration

English translation: about 14 pages

Chinese original: about 21,242 characters

4 Related standards

Standards on related subjects:

GB/T 17742-2020 - The Chinese seismic intensity scale

DB/T 24-2025 - Specification for earthquake case stigmatization

DB/T 20.1-2025 - Specification for the construction of seismic station - Underground fluid station - Part 1: Water level, flow rate and temperature

DB/T 19-2020 - Specification for the construction of seismic station. Global navigation satellite system fiducial station

5 Classification and status

International classification (ICS): 91.120.29

Chinese Standard Classification (CCS): P 15

Prefix DB/T: recommended standard.
