1 Foreword

DB/T 90-2022 was issued by China Earthquake Administration on 29 December 2022 and has been in force since 1 May 2023.

The DB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 35 pages in English translation.

2 Scope Preview

This document specifies the verification conditions, verification items, measurement performance requirements of each item and Test method. This document is applicable to the initial verification and subsequent verification of the Invar scale for seismic leveling and the verification of the Invar scale for other leveling surveys it can be used for reference.

DB/T 90-2022 falls under ICS 91.120.25, in the field of construction materials and building.

This catalogue holds 94 other DB/T standards in that field.

In this catalogue, DB/T standards carry edition years from 2000 to 2026.

3 About this standard

Issued by: China Earthquake Administration

English translation: about 35 pages

Chinese original: about 40,487 characters

4 Related standards

Standards on related subjects:

GB/T 17742-2020 - The Chinese seismic intensity scale

DB/T 60-2015 - Specification for the construction of seismic stations - Stations for rapid reporting of seismic intensity and earthquake early warning

DB/T 96-2024 - Report writing specifications for the field verification of observed seismic anomaly - Seismometry

DB/T 95-2024 - Report writing specifications for the field verification of observed seismic anomaly - Geomagnetism

DB/T 94-2024 - Report writing specifications for the field verification of observed seismic anomaly - Geoelectricity

5 Classification and status

International classification (ICS): 91.120.25

Chinese Standard Classification (CCS): P 15

Prefix DB/T: recommended standard.
