1 Foreword

DB/T 98-2024 was issued by China Earthquake Administration on 1 March 2024 and has been in force since 1 September 2024.

The DB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 27 pages in English translation.

2 Scope Preview

This document specifies the technical requirements for measurement point design, construction, observation and data archiving for absolute gravity measurement. This document is applicable to absolute gravity measurement and can also be used as a reference for other industries or scientific research.

DB/T 98-2024 falls under ICS 91.120.25, in the field of construction materials and building.

This catalogue holds 94 other DB/T standards in that field.

In this catalogue, DB/T standards carry edition years from 2000 to 2026.

3 About this standard

Issued by: China Earthquake Administration

English translation: about 27 pages

Chinese original: about 36,319 characters

4 Related standards

Standards on related subjects:

GB/T 17742-2020 - The Chinese seismic intensity scale

DB/T 60-2015 - Specification for the construction of seismic stations - Stations for rapid reporting of seismic intensity and earthquake early warning

DB/T 106-2025 - Specifications for the operation of seismic networks - Geoelectric observation

DB/T 105-2025 - Specification for the operation of seismic networks GNSS fiducial station of crustal deformation monitoring networks

DB/T 104-2025 - Specification for the research report of annual earthquake tendency

5 Classification and status

International classification (ICS): 91.120.25

Chinese Standard Classification (CCS): P 15

Prefix DB/T: recommended standard.
