### What this standard covers

This standard specifies the technical requirements for the maintenance of a circulating fluidized bed boiler unit (including the boiler body and its auxiliary equipment and auxiliary systems). This section applies to circulating fluidized bed boilers with a capacity of 220t / h and above. Maintenance of other circulating fluidized bed boilers can be implemented by reference.

### Document data

International classification (ICS): 27.100.

Chinese classification (CCS): F23.

Estimated length of the Chinese original: 10,177 words.

Supersedes the earlier edition DL/T 1035.1-2006.
