What this standard covers

This standard specifies the power plant auxiliaries and above 3kV voltage electrical motor speed control mode selection methods and principles as well as testing and acceptance specifications. This standard applies to power plant fan and pump type load electric drive motor speed control equipment selection and energy saving.

Document data

International classification (ICS): 29.160.30.

Chinese classification (CCS): K21.

Estimated length of the Chinese original: 17,131 words.
