What this standard covers

This standard specifies the technical requirements for the design, construction, acceptance, operation and maintenance of the flue gas bag filter engineering of coal-fired power plant boilers. This standard is applicable to the boiler flue gas bag-type dust removal project of coal-fired power plants, and other boiler flue gas bag-type dust removal projects can be implemented by reference.

Document data

International classification (ICS): 27.100.

Chinese classification (CCS): F29.

Estimated length of the Chinese original: 24,299 words.

Supersedes the earlier edition DL/T 1121-2009.
