What this standard covers

This standard specifies the numerical simulation of the simulation technology of SCR flue gas denitrification in coal-fired power plant, and the physical model experiment. This standard applies to coal-fired power plant SCR flue gas denitrification flow simulation, other SCR denitrification system can refer to the implementation.

Document data

International classification (ICS): 27.100.

Chinese classification (CCS): F23.

Estimated length of the Chinese original: 6,671 words.
