What this standard covers

This standard specifies the specific technical conditions for power plant pulverized coal boilers in the selection, bidding, ordering, supervision, transportation, storage and acceptance. This standard applies to the rated evaporation of 220t/h and above the power plant pulverized coal boiler. This standard does not apply to circulating fluidized bed boilers.

Document data

International classification (ICS): 27.060.

Chinese classification (CCS): J98.

Estimated length of the Chinese original: 25,224 words.

Supersedes the earlier edition SD 268-1988.
