### What this standard covers

This Standard specifies the single-phase oil-immersed distribution transformers (hereinafter referred to as single-phase distribution transformers) terms and definitions, product category, product type and meaning, selection principles, scope, technical requirements, testing requirements, packaging, transportation and storage. This Standard applies to the rated frequency is 50Hz, voltage level 10, 20kV single-phase distribution transformers.

### Document data

International classification (ICS): 29.24.

Chinese classification (CCS): K41.

Estimated length of the Chinese original: 10,122 words.
