What this standard covers

This standard specifies the classification, technical requirements, testing, inspection rules, marking, packaging, storage and so on of the insulation platform for 10kV live working. This standard is applicable to the insulation platform used for 10kV live work at the altitude of 1000m and below. At altitudes above 1000m, the safety distance and length of various types of air and solid insulation shall be modified according to different elevations.

Document data

International classification (ICS): 29.240.20.

Chinese classification (CCS): K47.

Estimated length of the Chinese original: 12,196 words.
