### What this standard covers

This standard specifies the terms and definitions of electronic current transformers, conditions of use, basic classification, technical requirements, structure and selection requirements, testing, marking, period of use, packaging, transportation and storage. This standard applies to the rated frequency of 15Hz ~ 100Hz, with analog or digital output of the electronic current transformer.

### Document data

International classification (ICS): 29.180.

Chinese classification (CCS): K41.

Estimated length of the Chinese original: 27,292 words.
