What this standard covers

This standard specifies the technical requirements for the design, configuration, installation, commissioning, data and acceptance of PROFIBUS field bus technology in thermal power plants. This standard applies to the thermal power plant application PROFIBUS DP, PROFIBUS PA technology unit unit and the auxiliary workshop control system. This standard does not apply to PROFIBUS wireless transmission, PROFISafe applications.

Document data

International classification (ICS): 27.100.

Chinese classification (CCS): F24.

Estimated length of the Chinese original: 35,374 words.
