What this standard covers

This standard specifies the name of the fire power capacitor models, conditions of use, test methods, inspection rules. This standard applies to indoor, parallel connected to the rated frequency of 50Hz, rated voltage higher than 1 kV AC power system with fire performance, used to improve the power factor of the capacitor.

Document data

International classification (ICS): 29.240.99.

Chinese classification (CCS): K42.

Estimated length of the Chinese original: 17,181 words.
