What this standard covers

This standard specifies the technical requirements for the installation of power communication optical cables. This standard is applicable to the construction, reconstruction and expansion of power communication optical cable projects for power special optical cables, ordinary optical cables and submarine optical cables, and non-electrical communication optical cable projects using power system poles and pipeline resources.

Document data

International classification (ICS): 33.180.10.

Chinese classification (CCS): M30;M49.

Estimated length of the Chinese original: 21,272 words.
