What this standard covers

This standard specifies the calculation method for the energy efficiency index of the new (expanded, modified) coal-fired cogeneration unit. This standard is applicable to the calculation, evaluation and access accounting of energy efficiency indicators in the design stage of new (expanded, modified) coal-fired cogeneration units.

Document data

International classification (ICS): 27.100.

Chinese classification (CCS): F23.

Estimated length of the Chinese original: 11,178 words.
