What this standard covers

This standard specifies the selection principles, selection process, technical requirements, protection and distribution marks, packaging, transportation and storage requirements for on-load tap-changers (resistive type) for power transformers. This standard applies to oil-immersed AC power transformers with a rated voltage of 35kV to 500kV.

Document data

International classification (ICS): 29.180.

Chinese classification (CCS): K41.

Estimated length of the Chinese original: 26,266 words.
