What this standard covers

This standard specifies the structural type, technical requirements and inspection rules for conductive glass steel anodes for wet electrostatic precipitators. This standard is applicable to the conductive glass steel anode test for wet electrostatic precipitators in the power industry. Other industries can refer to implementation.

Document data

International classification (ICS): 27.100.

Chinese classification (CCS): F20.

Estimated length of the Chinese original: 17,143 words.
