What this standard covers

This standard specifies the classification, technical requirements, test conditions, test methods, inspection rules, packaging, transportation and storage of power frequency high voltage generators (referred to as generators) for AC 10kV ~ 110kV voltage class capacitance type electroscopes (referred to as electroscopes). Wait. This standard is applicable to power frequency high voltage generators for AC 10kV ~ 110kV voltage level electroscopes.

Document data

International classification (ICS): 29.240.

Chinese classification (CCS): F20.

Estimated length of the Chinese original: 10,195 words.
