What this standard covers

This standard specifies the technical requirements for gas-insulated metal-enclosed switchgear (GIS) X-ray perspective imaging on-site inspection system, on-site inspection method and result analysis, on-site inspection safety protection, image preservation and inspection report. This standard is applicable to the on-site inspection of gas insulated metal enclosed switchgear (GIS) X-ray perspective imaging. The on-site inspection of X-ray fluoroscopic imaging of other power equipment can refer to this standard.

Document data

International classification (ICS): 29.130.10.

Chinese classification (CCS): K43.

Estimated length of the Chinese original: 27,263 words.
