What this standard covers

This standard specifies the process, process, commissioning, quality control and acceptance requirements for the overhaul of check valves in thermal power plants. This standard is applicable to the maintenance of check valves and extraction check valves of steam (gas) water, oil and other pipeline systems in thermal power plants. Other check valves can refer to this standard.

Document data

International classification (ICS): 23.060.50.

Chinese classification (CCS): J16.

Estimated length of the Chinese original: 14,129 words.
