What this standard covers

This standard specifies the technical requirements for the use conditions, main parameters, performance requirements and tests of dry-type smoothing reactors for degC1100kV UHV DC systems. This standard applies to dry-type smoothing reactors (referred to as smoothing reactors) for degC1100kV UHV DC systems. This standard does not apply to smoothing reactors in other industrial DC systems.

Document data

International classification (ICS): 29.180.

Chinese classification (CCS): K41.

Estimated length of the Chinese original: 19,194 words.
