What this standard covers

This standard specifies the arrival acceptance, on-site storage, transfer, pre-installation inspection, installation, pre-operation inspection and operation and maintenance of disc-shaped suspension porcelain or glass insulators for high-voltage AC and DC systems. This standard applies to high-voltage AC/DC overhead power lines, power plants, substations and converter stations with disc suspension porcelain or glass insulators (hereinafter referred to as insulators).

Document data

International classification (ICS): 29.080.10.

Chinese classification (CCS): K48.

Estimated length of the Chinese original: 10,148 words.
