What this standard covers

This standard specifies the design, implementation and operation management requirements of the online monitoring system for dam operation safety of hydropower stations. This standard applies to dams with a dam height of 100m or more in operation of hydropower stations, as well as dams with a storage capacity of more than 100 million m³ and dangerous dams. Other hydropower dams can be implemented by reference.

Document data

International classification (ICS): 27.140.

Chinese classification (CCS): P59.

Estimated length of the Chinese original: 12,184 words.
