What this standard covers

This standard specifies the reagents and materials, instruments and equipment, test preparation, instrument analysis, result calculation, precision and test report for the determination of chlorine and fluorine content in solid fuels of biomass power plants. This standard is applicable to the determination of chlorine and fluorine content in solid fuels of biomass power plants. The detection range of chlorine in this method is 3.80mg/kgdegC200degC102mg/kg, and the detection range of fluorine is 1.50mg/kgdegC65.0mg/kg.

Document data

International classification (ICS): 19.020.

Chinese classification (CCS): F13.

Estimated length of the Chinese original: 10,198 words.
