What this standard covers

This standard specifies the technical requirements, precautions, and tool tests for the live operation of the degC500kV, degC660kV and degC800kV DC grounding pole overhead lines under unipolar or bipolar operation. This standard is applicable to the live operation of degC500kV, degC660kV and degC800kV DC grounding pole overhead lines in areas with an altitude of 1000m and below. The relevant technical parameters in areas above 1000m should be corrected for altitude.

Document data

International classification (ICS): 29.240.20.

Chinese classification (CCS): F20.

Estimated length of the Chinese original: 10,181 words.
