What this standard covers

This standard specifies the product specifications, technical requirements, test methods, inspection rules and marking, packaging, transportation, and storage requirements for differential resistance earth pressure gauges. This standard applies to differential resistance earth pressure gauges for measuring soil compressive stress in dams and geotechnical engineering safety monitoring.

Document data

International classification (ICS): 17.220.

Chinese classification (CCS): N93.

Estimated length of the Chinese original: 17,176 words.
