What this standard covers

This standard specifies the ion chromatography plant water vapor samples cations sodium ions (Na +), potassium (K +), magnesium (Mg²⁺), calcium (Ca²⁺) and ammonium ions (NH₄⁺) approach. This standard applies to power plants water, condensate, steam and boiler water and other water samples Determination of the cation.

Document data

International classification (ICS): 13.060.

Chinese classification (CCS): J98.

Estimated length of the Chinese original: 12,155 words.
