What this standard covers

This standard specifies the 66kV ~ 220kV XLPE insulated power electrical systems installed GIS terminal installation process, quality assessment and acceptance of other basic requirements. This standard applies to the rated voltage of 66kV ~ 220kV XLPE insulated power cable outdoor termination installation. Outdoor terminal installed in addition to meet the regulations, we must also comply with other relevant national regulations and GIS terminal manufacturers product specification requirements.

Document data

International classification (ICS): 29.060.

Chinese classification (CCS): K13.

Estimated length of the Chinese original: 13,183 words.
