### What this standard covers

This standard specifies the technical requirements, operating precautions, testing, transportation and storage of industrial tools for 1000kV single-circuit and double-AC transmission lines on the same tower. This standard is applicable to the live work of 1000kV single-circuit and double-circuit AC transmission lines on the same tower at an altitude of 2000m and below.

### Document data

International classification (ICS): 29.240.20.

Chinese classification (CCS): K47.

Estimated length of the Chinese original: 10,161 words.

Supersedes the earlier edition DL/T 392-2010.
