### What this standard covers

This standard specifies the determination method for the precipitation of transformer oil, turbine oil and phosphoric acid anti-fuel sludge. This standard is applicable to the determination of transformer oil, turbine oil, and phosphate anti-fuel sludge. This standard can be used to measure the total content of sludge and sediment in oil. The oil used in the auxiliary machinery of the power plant can be referred to.

### Document data

International classification (ICS): 75.080.

Chinese classification (CCS): E30.

Estimated length of the Chinese original: 7,732 words.

Supersedes the earlier edition DL/T 429.7-1991.
