1 Foreword

DL/T 500-2026 was issued by National Energy Administration on 26 June 2026 and takes effect on 26 December 2026.

It replaces the earlier edition DL/T 500-2017, DL/T 500-2009.

The DL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

DL/T 500-2026 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 5,181 other DL/T standards.

Of the 2,309 DL/T standards that do carry an ICS number, 1,146 (50%) fall under ICS 27, in the field of energy and heat transfer engineering.
