What this standard covers

This standard specifies the hydraulic concrete freezing and thawing, environmental water erosion, abrasion and cavitation erosion, corrosion of steel in concrete, alkali aggregate reaction and other technical requirements for durability. This standard applies to large and medium-sized hydropower and water conservancy. Other works to be implemented by reference.

Document data

International classification (ICS): 27.140.

Chinese classification (CCS): P59.

Estimated length of the Chinese original: 49,491 words.
